Voters under 65 need to read and to see on the go from our women allies that Christy Smith, a Santa Clarita mom of two daughters, will fight to make Washington work for women and their families, not the special interests. Christy will not take a dime of corporate PAC money because she doesn’t work for them; she’ll take on the corporate special interests and fight for equal pay for equal work and equal access to promotions for women. As an Assemblywoman, Christy Smith cut through partisan politics to help pass a law to expand paid family leave for new parents and caregivers.

**Smith Voted For A Bill That Passed The State Assembly That Increased Paid Family Leave From 60 – 70 Percent To 100 Percent.** According the California State Assembly, Christy Smith voted for AB 196, which passed the Assembly 66-7. “The legislation would give workers in the state 100 percent of their wages when on family leave, rather than the program’s current 60 or 70 percent. Family leave in the state includes taking time off to care for a seriously ill family member or to spend time with a child within one year of its birth or placement in a family.” [California State Assembly, AB 196, 5/23/19; The Hill, 5/24/19]
