**Kistner Was Bad For Minnesotans Health Care.** *Kistner supported repealing the Affordable Care Act. Kistner failed to acknowledge that repealing the ACA would cause 30 million Americans to lose their health care coverage, including 266,000 Minnesotans. If the ACA were repealed, 133 million Americans with preexisting conditions could lose their health insurance, including 307,800 Minnesotans who lived in the 2nd Congressional district. Kistner Was Bad For Minnesotans Health Care

**Kistner Supported Repealing The Affordable Care Act**
Kistner Supported Repealing, Then Reforming Obamacare. At a 2nd Congressional Republican Candidate Forum, the question asked was “Would you repeal Obamacare entirely?” Kistner said “I would repeal, then reform, because our healthcare system is broken. You have farmers out there who are going and spending their own money to put into a mutual fund with others to help fund their health insurance. That tells you they can’t even work through the system they have in place, which means it’s broken, and that needs to be fixed. That needs to be fixed now, because that’s an issue every mayor gets faced with, is the rising costs of healthcare.” [Congressional Republican Candidate Forum, 00:35:35, 2/18/20] (VIDEO)

Kistner Failed To Acknowledge All The Protections The Affordable Care Act Provided To Millions Of Americans

Repealing The Affordable Care Act Would Cause 30 Million Americans To Lose Their Health Care Coverage, Including 266,000 Minnesotans

29.8 Million People Would Lose Their Health Insurance If Affordable Care Act Were Repealed. “Across the country, 29.8 million people would lose their health insurance if the Affordable Care Act were repealed—more than doubling the number of people without health insurance. And 1.2 million jobs would be lost—not just in health care but across the board.” [EPI, accessed 3/26/19, based on 2016 data]

2019: 266,000 Minnesotans Would Lose Health Care Coverage If The Affordable Care Act Was Repealed. According to the Center for American Progress, 266,000 Minnesotans would lose health care coverage if the Affordable Care Act was repealed. In the 2nd Congressional District, 35,000 would lose coverage. [Center for American Progress, 7/9/19]

Repealing The ACA Could Cause 133 Million Americans With Preexisting Conditions To Lose Health Insurance, Including 307,800 Minnesotans Who Lived In The 2nd Congressional District

2017: Repeal Could Have Denied Coverage To As Many As 133 Million Americans. “This analysis updates that earlier study. It confirms that a large fraction of non-elderly Americans have pre-existing health conditions: at least 23 percent of Americans (61 million people) using a narrow definition based on eligibility criteria for pre-ACA state high-risk pools, or as many as 51 percent (133 million people) using a broader definition closer to the underwriting criteria used by insurers prior to the ACA. Any of these 133 million Americans could have been denied coverage, or offered coverage only at an exorbitant price, had they needed individual market health insurance before 2014.” [HHS.gov, Issue Brief, 1/5/17]

Repealing The ACA Would Cause 307,800 Minnesotans From The 2nd Congressional District To Lose Health Insurance With Preexisting Conditions. According to Center for America Progress, as of October 2019, repealing the if the Affordable Care Act would cause 307,800 Minnesotans from the 2nd Congressional district to lose health care insurance because of a pre-existing condition. [Center for America Progress, 10/2/19]

The Affordable Care Act Prevented Insurers From Denying Coverage Or Charging More If An Individual Had A Pre-existing Condition. “In the old days, insurance companies had ways to avoid selling policies to people who were likely to cost more than insurers wanted to spend. They might deny them coverage outright, or exclude coverage for a known condition, or charge so much that insurance became unaffordable. The Affordable Care Act boxes out the old insurance practices with a package of legal moves. First, it says point-blank that carriers ‘may not impose any preexisting condition exclusion.’ It backs that up with another section that says they ‘may not establish rules for eligibility’ based on health status, medical condition, claims experience or medical history.” [Polifact, 10/17/18]

Repealing The ACA Would Increase The Cost Of Insurance Premiums
Repealing The Affordable Care Act Would Increase Insurance Premiums; According To The Washington Post, “Many Would Find They Could No Longer Afford Coverage.” “The ACA, also known as Obamacare, provides subsidies to help subscribers afford the cost of individual policies. The law also required all Americans, with a few exceptions, to have insurance. Without the subsidies or the requirement that all Americans have coverage, experts say the healthiest customers would cease buying insurance if they do not have policies through their employers or through the government. As a result, insurers would be forced to increase premiums to cover the cost of treating those sicker patients who remain. Many would find they could no longer afford coverage.” [Washington Post, 12/7/16]

Repealing The ACA Would Increase The Cost Of Drugs For Seniors

CMS: Affordable Care Act Has Helped 7.3 Million Seniors Save $8.9 Billion In Prescription Drug Costs. “ObamaCare has saved seniors and people with disabilities nearly $9 billion in prescription drug costs, according to data touted Tuesday by the Obama administration. According to the Centers for Medicaid and Medicare Services, 7.3 million people who reached the ‘doughnut hole’ in their Medicare prescription drug coverage have saved $8.9 billion on their prescription drugs since the law was enacted in 2010. That’s an average savings of $1,209 per person.” [The Hill, 11/26/13]

Repeal Would Re-Open Medicare Prescription-Drug Doughnut Hole. “There’s a Medicare prescription-drug coverage abyss that is playfully referred to as the ‘doughnut hole,’ though there is nothing sweet or amusing about it. But thanks to the Affordable Care Act, which had a rocky launch last week, Medicare beneficiaries will see that gap shrink again in 2013 and each year until 2020.” [Wall Street Journal, 10/06/13]

Repealing The ACA Would Deny Preventive Health Coverage To 105 Million Americans

“About 71 million Americans with private health insurance plans received at least one free preventive health service -- such as a mammogram or flu shot -- in 2011 and 2012 because of the Affordable Care Act, the Obama administration said Monday. In addition, about 34 million people in traditional Medicare and Medicare Advantage plans also received at least one free preventive health service -- such as an annual wellness visit -- due to the health care law, according to a report released Monday by the U.S. Department of Health and Human Services (HHS). In total, about 105 million Americans have been helped by the preventive services coverage improvements in the Affordable Care Act, said the HHS, which is marking the third anniversary of passage of the law.” [US News & World Report, 3/18/13]

Kistner Put Corporations & Special Interests Ahead Of Middle Class Minnesotans

Kistner Supported The 2017 Republican Tax Bill. “Kistner opposes a bigger government role in health care and supports policies allowing private coverage across state lines, foreign pharmaceutical competition and more health care price transparency to push down costs. He also supports the 2017 tax cuts.” [SW News Media, 1/9/19]

Tax Cuts And Jobs Act Benefitted The Wealthy, Corporations, And Special Interests…

Washington Post: Final Tax Bill Included A “Significant Tax Break For The Very Wealthy” And A Massive Tax Cut For Corporations.” “A new tax cut for the rich: The final plan lowers the top tax rate for top earners. Under current law, the highest rate is 39.6 percent for married couples earning over $470,700. The GOP bill would drop that to 37 percent and raise the threshold at which that top rate kicks in, to $500,000 for individuals and $600,000 for married couples. This amounts to a significant tax break for the very wealthy, a departure from repeated claims by Trump and his top officials that the bill would not benefit the rich. […] A massive tax cut for corporations “A massive tax cut for corporations: Starting on Jan. 1, 2018, big businesses’ tax rate would fall from
35 percent to just 21 percent, the largest one-time rate cut in U.S. history for the nation’s largest companies.” [Washington Post, 12/15/17]

…While Millions Of Americans Would Pay More In Taxes

Politifact: GOP Tax Bill Would Raise Taxes For The Middle Class After Individual Tax Cut Provisions Expired In 2025. “Gillibrand said the Republican ‘tax [plan] raises middle-class taxes.’ That’s not true during the first years of the new tax provisions. If not for the sunset for the tax changes for individuals, we likely would have rated Gillibrand’s statement False or perhaps Mostly False. Middle-income taxpayers will either benefit or see no change in their tax liability through 2025. But her claim could hold up after the bill’s individual provisions expire that year. There’s no guarantee a future Congress will extend those parts of the bill.” [Politifact, 12/22/17]

Tax Policy Center: In 2018, 5 Percent Of Taxpayers Would Pay More In Taxes Under The GOP Tax Bill, But Would Increase To 53 Percent Of Taxpayers In 2027. “Some taxpayers would pay more in taxes under the proposal in 2018 and 2025 than under current law: about 5 percent of taxpayers in 2018 and 9 percent in 2025. In 2027, however, taxes would increase for 53 percent of taxpayers compared with current law.” [Tax Policy Center, 12/18/17]

Tax Cuts And Jobs Act Increased The Federal Debt – And Republicans Planned To Pay For It With Cuts To Medicare And Social Security

Official CBO Estimate Found Final Tax Bill Would Increase The Federal Deficit By $1.9 Trillion. “The GOP’s signature tax law is projected to increase the national debt by $1.9 trillion between 2018 and 2028, according to a new report by the Congressional Budget Office (CBO). According to the report, the tax law would cost the government $2.3 trillion in revenues, but economic growth would offset that figure by about $461 billion.” [The Hill, 4/9/18]

After Passing A Tax Bill That Added Trillions To The Deficit, Speaker Ryan Said Medicare And Medicaid Would Need To Be “Reformed” In Order To Decrease The Deficit. “With his dream of tax reform now realized, Ryan is hoping to make progress on two other issues he’s targeted during his two-decade career in Washington: entitlement and welfare reform. ‘We’re going to have to get back next year at entitlement reform, which is how you tackle the debt and the deficit,’ Ryan, a former Budget Committee chairman, said in a recent interview this month on the Ross Kaminsky radio talk show. Medicare and Medicaid are the ‘big drivers of debt,’ Ryan said, suggesting Republicans could once again use the budget reconciliation process to avoid a Democratic filibuster. Medicare is the ‘biggest entitlement that’s got to have reform,’ Ryan added.” [The Hill, 12/27/17]

AP: “A Wide Range Of Economists And Nonpartisan Analysts Have Warned That The Bill Will Likely Escalate Federal Debt, Intensify Pressure To Cut Spending On Social Programs And Further Widen America’s Troubling Income Inequality.” “The tax overhaul of 2017 amounts to a high-stakes gamble by Republicans in Congress: That slashing taxes for corporations and wealthy individuals will accelerate growth and assure greater prosperity for Americans for years to come. The risks are considerable. A wide range of economists and nonpartisan analysts have warned that the bill will likely escalate federal debt, intensify pressure to cut spending on social programs and further widen America’s troubling income inequality.” [Associated Press, 12/17/17]
Tax Cuts And Jobs Act Would Increase Incentives To Move Jobs Overseas

“Tax experts say, will probably happen to more Americans if the Republican tax overhaul becomes law. The legislation fails to eliminate long-standing incentives for companies to move overseas and, in some cases, may even increase them, they say. ‘This bill is potentially more dangerous than our current system,’ said Stephen Shay, a senior lecturer at Harvard Law School and former Treasury Department international tax expert in the Obama administration. ‘It creates a real incentive to shift real activity offshore.’” [Washington Post, 12/15/17]

Tax Cuts And Jobs Act Would Lead To More Expensive Health Insurance; 13 Million More Uninsured

Final Tax Bill Eliminated Central Affordable Care Act Provision, Leading To 13 Million Fewer Americans With Insurance. “The individual mandate is part of the Affordable Care Act, and removing it was a top priority for Trump and congressional Republicans. The Congressional Budget Office projects the change will increase insurance premiums and lead to 13 million fewer Americans with insurance in a decade, while also cutting government spending by more than $300 billion over that period.” [Washington Post, 12/15/17]

GOP Tax Bill Would Cause Health Insurance Premiums To Rise, And Could Lead Insurers To Drop Out Of Regional Markets. “The final GOP plan will repeal the Affordable Care Act’s individual insurance mandate, which would allow young and healthy people to leave the insurance pool, forcing insurers to compensate by raising prices due to the higher costs of insuring only less-healthy people. Not only would premiums likely rise, but many insurers could drop out of regional markets.” [Newsweek, 12/18/17]

HEADLINE: Republican Tax Plan Will Make Health Insurance More Expensive [Newsweek, 12/18/17]

Kistner said “The free market system and our trade agreements have allowed our economy to grow and flourish. Economic prosperity is not achieved through increased taxes but through the complete deregulation of the free market system to make it truly free. Washington DC needs to get out of the way of the free market and let this bull-Market run!” [Tyler Kistner for Congress, accessed 5/4/20]

The Claim Originated From A Report Done By The Federation For Immigration Reform (FAIR), Which Was Designated As A Hate Group By The Southern Poverty Law Center

The Claim Originated From A Report Done By The Federation For Immigration Reform (FAIR). “A comprehensive report by the Federation for Immigration Reform (FAIR) breaks down the cost of illegal immigration to U.S. taxpayers: $115.9 billion annually. Based on the most recent data reported in 2017, The Fiscal Burden of Illegal Immigrants examines the fiscal impact of illegal immigration in federal and state budgets. It also highlights which U.S. citizens pay the most: Californians, Texans and Floridians.” [The Center Square, 8/25/19]

FAIR Was Designated As A Hate Group By The Southern Poverty Law Center. “EXTREMIST GROUP INFO: SPLC DESIGNATED HATE GROUP […] FAIR leaders have ties to white supremacist groups and eugenicists and have made many racist statements. Its advertisements have been rejected because of racist content. FAIR’s founder, John Tanton, has expressed his wish that America remain a majority-white population: a goal to be achieved, presumably, by limiting the number of nonwhites who enter the country. One of the group’s main goals is upending the Immigration and Nationality Act of 1965, which ended a decades-long, racist quota system that limited immigration mostly to northern Europeans.” [Southern Poverty Law Center, accessed 5/21/20]

Kistner said states should have more power over how to spend federal money on roads and other infrastructure. “Kistner said […] Few members of Congress struck him as genuinely serving the public, he said, so he decided to run. His primary goal is to limit federal government overreach; he opposes federal education standards, for example, and said states should have more power over how to spend federal money on roads and other infrastructure.” [Shakopee Valley News, 1/9/20]

Kistner: “It’s the federal government’s responsibility to establish critical infrastructure across the country to enable economic growth and prosperity. We cannot ignore the government’s obligation to enhance the nation’s critical infrastructure which is outdated and degrading. Enhanced and improved infrastructure will foster greater economic growth for the nation, while simultaneously creating jobs across Minnesota and the country.” [Tyler Kistner for Congress, accessed 5/4/20]

**Illegal Immigration**

Kistner said that “$116 Billion Of Taxpayer Dollars Going To Illegal Immigrants Per Year.” At a 2nd Congressional Republican Candidate Forum, Kistner stated “It is $116 billion of taxpayer dollars going to illegal immigrants per year, that is your money. The claim originated from a report done by the Federation for Immigration Reform (FAIR). “A comprehensive report by the Federation for Immigration Reform (FAIR) breaks down the cost of illegal immigration to U.S. taxpayers: $115.9 billion annually. Based on the most recent data reported in 2017, The Fiscal Burden of Illegal Immigrants examines the fiscal impact of illegal immigration in federal and state budgets. It also highlights which U.S. citizens pay the most: Californians, Texans and Floridians.” [The Center Square, 8/25/19]

FAIR was designated as a hate group by the Southern Poverty Law Center. “EXTREMIST GROUP INFO: SPLC DESIGNATED HATE GROUP […] FAIR leaders have ties to white supremacist groups and eugenicists and have made many racist statements. Its advertisements have been rejected because of racist content. FAIR’s founder, John Tanton, has expressed his wish that America remain a majority-white population: a goal to be achieved, presumably, by limiting the number of nonwhites who enter the country. One of the group’s main goals is upending the Immigration and Nationality Act of 1965, which ended a decades-long, racist quota system that limited immigration mostly to northern Europeans.” [Southern Poverty Law Center, accessed 5/21/20]

**Politifact: GOP Tax Bill Would Raise Taxes For The Middle Class After Individual Tax Cut Provisions Expired In 2025.** “Gillibrand said the Republican ‘tax [plan] raises middle-class taxes.’ That’s not true during the first years of the new tax provisions. If not for the sunset for the tax changes for individuals, we likely would have rated Gillibrand’s statement False or perhaps Mostly False. Middle-income taxpayers will either benefit or see no change in their tax liability through 2025. But her claim could hold up after the bill’s individual provisions expire that year. There’s no guarantee a future Congress will extend those parts of the bill.” [Politifact, 12/22/17]

**Tax Policy Center: In 2018, 5 Percent Of Taxpayers Would Pay More In Taxes Under The GOP Tax Bill, But Would Increase To 53 Percent Of Taxpayers In 2027.** “Some taxpayers would pay more in taxes under the proposal in 2018 and 2025 than under current law: about 5 percent of taxpayers in 2018 and 9 percent in 2025. In 2027, however, taxes would increase for 53 percent of taxpayers compared with current law.” [Tax Policy Center, 12/18/17]
Tax Cuts And Jobs Act Increased The Federal Debt – And Republicans Planned To Pay For It With Cuts To Medicare And Social Security

Official CBO Estimate Found Final Tax Bill Would Increase The Federal Deficit By $1.9 Trillion. “The GOP’s signature tax law is projected to increase the national debt by $1.9 trillion between 2018 and 2028, according to a new report by the Congressional Budget Office (CBO). According to the report, the tax law would cost the government $2.3 trillion in revenues, but economic growth would offset that figure by about $461 billion.” [The Hill, 4/9/18]

After Passing A Tax Bill That Added Trillions To The Deficit, Speaker Ryan Said Medicare And Medicaid Would Need To Be “Reformed” In Order To Decrease The Deficit. “With his dream of tax reform now realized, Ryan is hoping to make progress on two other issues he’s targeted during his two-decade career in Washington: entitlement and welfare reform. ‘We’re going to have to get back next year at entitlement reform, which is how you tackle the debt and the deficit,’ Ryan, a former Budget Committee chairman, said in a recent interview this month on the Ross Kaminsky radio talk show. Medicare and Medicaid are the ‘big drivers of debt,’ Ryan said, suggesting Republicans could once again use the budget reconciliation process to avoid a Democratic filibuster. Medicare is the ‘biggest entitlement that’s got to have reform,’ Ryan added.” [The Hill, 12/27/17]

AP: “A Wide Range Of Economists And Nonpartisan Analysts Have Warned That The Bill Will Likely Escalate Federal Debt, Intensify Pressure To Cut Spending On Social Programs And Further Widen America’s Troubling Income Inequality.” “The tax overhaul of 2017 amounts to a high-stakes gamble by Republicans in Congress: That slashing taxes for corporations and wealthy individuals will accelerate growth and assure greater prosperity for Americans for years to come. The risks are considerable. A wide range of economists and nonpartisan analysts have warned that the bill will likely escalate federal debt, intensify pressure to cut spending on social programs and further widen America’s troubling income inequality.” [Associated Press, 12/17/17]

Tax Cuts And Jobs Act Would Increase Incentives To Move Jobs Overseas

Tax Experts Said The Tax Cuts And Jobs Act Increased Incentives For Companies To Move Jobs Overseas. “What happened to the workers in Clinton, tax experts say, will probably happen to more Americans if the Republican tax overhaul becomes law. The legislation fails to eliminate long-standing incentives for companies to move overseas and, in some cases, may even increase them, they say. ‘This bill is potentially more dangerous than our current system,’ said Stephen Shay, a senior lecturer at Harvard Law School and former Treasury Department international tax expert in the Obama administration. ‘It creates a real incentive to shift real activity offshore.’” [Washington Post, 12/15/17]

Tax Cuts And Jobs Act Would Lead To More Expensive Health Insurance; 13 Million More Uninsured

Final Tax Bill Eliminated Central Affordable Care Act Provision, Leading To 13 Million Fewer Americans With Insurance. “The individual mandate is part of the Affordable Care Act, and removing it was a top priority for Trump and congressional Republicans. The Congressional Budget Office projects the change will increase
insurance premiums and lead to 13 million fewer Americans with insurance in a decade, while also cutting
government spending by more than $300 billion over that period.” [Washington Post, 12/15/17]

GOP Tax Bill Would Cause Health Insurance Premiums To Rise, And Could Lead Insurers To Drop Out Of
Regional Markets. “The final GOP plan will repeal the Affordable Care Act’s individual insurance mandate,
which would allow young and healthy people to leave the insurance pool, forcing insurers to compensate by raising
prices due to the higher costs of insuring only less-healthy people. Not only would premiums likely rise, but many
insurers could drop out of regional markets.” [Newsweek, 12/18/17]
