David Young voted for the Republican health care plan to strip coverage from millions of Americans and to gut protections for pre-existing conditions.

2017: Young Voted For The American Health Care Act – The Republican Health Care Repeal Bill. In May 2017, Young voted for “Passage of the bill that would make extensive changes to the 2010 health care overhaul law, by effectively repealing the individual and employer mandates as well as most of the taxes that finance the current system. It would, in 2020, convert Medicaid into a capped entitlement that would provide fixed federal payments to states and end additional federal funding for the 2010 law’s joint federal-state Medicaid expansion. It would prohibit federal funding to any entity, such as Planned Parenthood, that performs abortions and receives more than $350 million a year in Medicaid funds. As amended, it would give states the option of receiving federal Medicaid funding as a block grant with greater state flexibility in how the funds are used, and would require states to establish their own essential health benefits standards. It would allow states to receive waivers to exempt insurers from having to provide certain minimum benefits, would provide $8 billion over five years for individuals with pre-existing conditions whose insurance premiums increased because the state was granted a waiver to raise premiums based on an individual's health status, and would create a $15 billion federal risk sharing program to cover some of the costs of high medical claims.” The bill was passed by a vote of 217-213. [HR 1628, Vote #256, 5/4/17; CQ, 5/4/17]

CBO Estimated 14 Million More People Would Be Uninsured In 2018; 23 Million More Uninsured By 2026 If The AHCA Was Passed. “CBO and JCT estimate that, in 2018, 14 million more people would be uninsured under H.R. 1628 than under current law. The increase in the number of uninsured people relative to the number under current law would reach 19 million in 2020 and 23 million in 2026 (see Table 4, at the end of this document).” [CBO, 5/24/17]

Politifact Found That AHCA “Would Weaken Protections” For Those With Pre-Existing Conditions, “Would Allow States To Give Insurers The Power To Charge People Significantly More.” “An ad by the American Action Network says that under the American Health Care Act ‘people with pre-existing conditions are protected.’ The only kernel of truth here is that the amendment has language that states insurers can’t limit access to coverage for individuals with pre-existing conditions. However, the ad omits that the House GOP health plan would weaken protections for these patients. The legislation would allow states to give insurers the power to charge people significantly more if they had a pre-existing condition. While Republicans point to the fact that those patients could get help through high-risk pools, experts question their effectiveness. Current law does not allow states to charge people with pre-existing conditions significantly more. We rate this claim Mostly False.” [Politifact, 5/24/17]
