Lisa Scheller supported the Republican tax law that saw 83% of its tax breaks go to the wealthiest one percent of Americans and big corporations while adding nearly two trillion to the national debt

**Scheller: “President Trump’s Tax Reform Is A Big Step In The Right Direction.”** “As a member of Congress, Lisa will bring that same approach to the federal government. President Trump’s tax reform is a big step in the right direction but we need to do more to make taxes lower and more fair for all Americans.” [Scheller for Congress, accessed 5/5/20]

**Washington Post: Final Tax Bill Included A “Significant Tax Break For The Very Wealthy” And “A Massive Tax Cut For Corporations.”** “A new tax cut for the rich: The final plan lowers the top tax rate for top earners. Under current law, the highest rate is 39.6 percent for married couples earning over $470,700. The GOP bill would drop that to 37 percent and raise the threshold at which that top rate kicks in, to $500,000 for individuals and $600,000 for married couples. This amounts to a significant tax break for the very wealthy, a departure from repeated claims by Trump and his top officials that the bill would not benefit the rich. […] A massive tax cut for corporations: Starting on Jan. 1, 2018, big businesses’ tax rate would fall from 35 percent to just 21 percent, the largest one-time rate cut in U.S. history for the nation's largest companies.” [Washington Post, 12/15/17]

**CBO Estimated The Tax Cuts And Jobs Act Would Increase The Debt By $1.9 Trillion Over 10 Years.** “The GOP's signature tax law is projected to increase the national debt by $1.9 trillion between 2018 and 2028, according to a new report by the Congressional Budget Office (CBO). According to the report, the tax law would cost the government $2.3 trillion in revenues, but economic growth would offset that figure by about $461 billion.” [The Hill, 4/9/18]
