Early vote in person: October 24 – November 1
Election Day: Tuesday, November 3
Antonio Delgado responded to COVID-19 by bringing the parties together to create the Direct Support for Communities Act, providing local governments with money to help pay teachers, firefighters and frontline workers. He also secured $9 billion for family farms and provided automatic loan relief to small businesses struggling during the COVID-19 crisis.

Delgado introduced the Medicare-X Choice Act, creating a public option through Medicare while allowing people satisfied with their private insurance to keep it. He’s voted for measures to lower the cost of prescription drugs and allow the government to negotiate with drug companies.

Delgado understands how important farmers and small businesses are to our area. His Family Farmer Relief Act – allowing struggling farmers to restructure their debt – is now law. He secured much needed funding for high-speed internet and cell phone coverage in rural New York and wrote a bill helping small businesses cut through red tape.

"I AM ALWAYS LISTENING TO YOU, LEARNING FROM YOU, AND WORKING HARD TO REPRESENT YOU IN CONGRESS. IT’S A GREAT RESPONSIBILITY, BUT ALSO A GREAT HONOR."

Antonio Delgado
